GAME DESIGN

2026

Havenwood (*Name WIP*) (in development) — single-player role-playing game built in Unreal Engine that pairs first-person exploration with third-person turn-based combat, combining low-poly 3D environments with detailed 2D character art. Set in the war-torn village of Havenwood, above ancient ruins sealed beneath it.

PERSONAL ART

EMPLOYMENT

2025–present

Administrative Assistant I
School of Communication Sciences and Disorders (CSD), College of Health Professions and Sciences (CHPS), University of Central Florida

-Provide clerical, administrative and technical support to the faculty, staff, students and leadership of CSD and the wider College of Health Professions and Sciences.
-Run CSD's main campus office in Health Sciences 2, from opening and closing the office and keeping the front desk to greeting visitors and answering phone calls, email and in-person inquiries.
-Serve as the department scheduler, assigning courses, instructors

and classrooms in PeopleSoft, submitting textbook adoptions, working in Ad Astra and Learning Space Manager and coordinating with the UCF Bookstore, the Registrar's Office and leadership.
-Drawing on prior IT experience to provide tech support at the main campus office and the Innovative Center in Research Park (Communication Disorders Clinic, FAAST Center, Aphasia House and others).
-Act as the department's local Canvas/Webcourses) administrator, and advise on and ServiceNow tickets. As Asset Coordinator, oversee tagging and surplus requests for computers, peripherals, furniture and medical equipment with IT's Zone 3 team, the CHPS Business Relationship Manager and Asset Inventory Managers. Also use advanced Excel for departmental and college initiatives such as course scheduling and tracking technology purchases, textbooks and student activities.
-Organize and maintain projects for the department and college, including for directors, assistant directors and associate deans, submit spend authorizations, purchase orders and travel requests in Workday and orders through UCF's Technology Product Center and design flyers and quick-reference guides for the school.

2021–2025

IT Client Support Specialist I
Webcourses@UCF Support, Center for Distributed Learning (CDL), University of Central Florida

Provided technical support for UCF's custom version of the Canvas learning management system (Webcourses@UCF) and the software around it, including Microsoft Office and Azure, PeopleSoft, Workday, Zoom, Respondus LockDown Browser and Monitor, ProctorHub, Honorlock, UCFHere, Materia, Obojobo, Yellowdig and Packback, along with hardware (PCs, Macs, Chromebooks, mobile devices, webcams, microphones, printers) and network troubleshooting.
-Supported users by phone, email, live chat, ServiceNow, Zoom, Teams and in person, covering days, nights and weekends both remotely and in the office with little to no supervision, and maintained and transferred ServiceNow interactions, incidents and requests.
-Addressed technology concerns for leadership within the Center for Distributed Learning and across colleges and divisions
-Edited code to fix complex glitches in Canvas and other software, assisted division members without admin credentials in Canvas, Zoom, Panopto and PeopleSoft and handled Microsoft Azure multifactor authentication resets after its Canvas implementation in May 2023.
-Took a primary role in Canvas-related initiatives and data analysis, compiling ServiceNow reports and communicating findings to faculty, staff and leadership across the university, including the Division of Digital Learning's Assistant Vice Provost.
-Created custom visual guides in Adobe Photoshop to walk users through complex technical issues
-Managed and trained OPS student workers, and interviewed USPS and OPS candidates.

2017–2021

Graphic Design Assistant
Karen L. Smith Faculty Center for Teaching and Learning (FCTL), University of Central Florida

Served as both the department's office assistant and graphic designer, supporting the director and assistant director and helping faculty, teaching assistants, staff and students with administrative and digital media requests in person, remotely, by phone, on Zoom and Teams, by email, during workshops and in classrooms.
-Managed the front desk, office, classroom and office calendar as the point of contact for calls, email, walk-ins and scheduling, took notes in departmental meetings, and reached out to other departments on the Center's behalf.
-Created and implemented projects for daily office use, administration, marketing, conferences and workshops, and organized faculty events, workshops and conferences with upwards of 200 participants.
-Managed the department's website, social media accounts and VR simulations; processed faculty portraits, event photos and marketing images, edited video and added production quality to footage and provided hardware and software support in person and remotely.
-Trained and supervised student workers and took part in hiring committees for A&P positions and the hiring of OPS student employees.
